In the published article, there was an error in the location of the heading “**Results and discussion**” and in the location of the section “*Questionnaire and data collection*.”

The heading “**Results and discussion**” was previously placed at the end of the article.

Its correct location is after the “*Statistical Analysis*” paragraph.

The “*Questionnaire and data collection*” section was previously located directly before the conclusion section.

Its correct location is before the “*Statistical analysis*” section as a subsection of “**Material and methods**.”

The authors apologize for this error and state that this does not change the scientific conclusions of the article in any way. The original article has been updated.
